Whereas, the Company is engaged in the business of plant maintenance, repair and renovations (as defined in Article 6.000) with miscellaneous industries, and this work is of importance to the Unions herein listed, and it being recognized there is an essential difference in the conditions required to perform this type of work, the Unions herein listed with the Company wish to enter into an agreement for their mutual benefit covering work of this nature.

Whereas, the Unions have in their membership throughout the area members competent and qualified to perform the work of the Company.

Whereas, the Company has employed and now employs members of the Unions on maintenance, repair and renovation work recognized by the Unions of the AFL-CIO as being within the jurisdiction of said Unions.

Whereas, in order to ensure relative equity and uniform interpretation and application, the Unions, through the duly appointed and constituted General Presidents' Committee for maintenance in Canada, wish to negotiate and administer the said Collective Agreement in concert, each with the other, and all with the Company.

Whereas, the Company is engaged in the business of Plant Maintenance and as such has the authority to sell its services, within the scope of Article 6.000 "Definitions", under the terms and conditions of this Agreement without prior knowledge or approval of the Committee. Conversely The Company has the responsibility of satisfying the conditions of application (continuous and increasing utilization of Contract Maintenance services for specific Owner) and compliance with terms and conditions of the Agreement.

Whereas, the Company and the Unions desire to mutually establish hours of work and working conditions for the employees on an area basis to the end that satisfactory conditions and harmonious relations will continue to exist for the benefit of both parties to this Agreement.

Whereas, the Company and the Unions agree that, due to the particular nature of the work covered by this Agreement, there shall be no lockouts or strikes during the life of the Agreement, and provisions must be made to achieve this end.

Whereas, it is recognized that all employees covered by this Agreement shall have the protection of all existing Federal, Provincial and Local laws applicable to employees in general, any provisions in this Agreement which are in contravention of any Federal, Provincial, or Municipal regulation or laws affecting all or part of the limits covered by this Agreement shall be suspended in operation within the limits to which such law or regulation is in effect. Such suspension shall not affect the operation of any such provisions covered by this Agreement, to which the law or regulation is not applicable. Nor shall it affect the operations of the remainder of the provisions of the Agreement within the limits to which law or regulation is applicable.

Whereas a number of the Unions have initiated Standards of Excellence or similar programs for the development of their members, the Parties to this Agreement support the goals of those programs.

All references in this Agreement to the masculine gender shall also apply to the feminine gender.

It is, therefore, agreed by the undersigned Company and the undersigned Unions that in consideration of the mutual promises and covenants contained herein, the Project Agreement be made as follows:

ARTICLE 1.000 APPLICATION FOR PROJECT AGREEMENT

- 1.100 Any company desiring to enter into a Project Agreement for Maintenance by Contract, must appear before the General Presidents' Committee (hereinafter the "Committee") for purposes of review and orientation and present to the committee written evidence of the owner's intent to engage that company in the performance of maintenance service for a minimum period of one full year, subject to the usual termination clauses in such contracts.
- 1.200 It is further understood that the Project Agreement shall not be applicable for "shutdown" or "turnaround" work except when such work is performed within the scope of full or year-round supplementary maintenance contracts. In order to implement this restriction, it is understood that on newly constructed plants or units a shutdown may occur at any time under the terms of the Project Agreement but existing plants employing this service must have been under contract for full or year-round supplementary Maintenance service for at least four months prior to commencement of the shutdown/ turnaround or such work shall be performed under the terms of the local Construction Agreement.
- 1.300 Should the contract for full or year-round supplementary maintenance be terminated during the term of this Collective Agreement for any of the projects listed, this Collective Agreement shall be considered null and void as it applies to that project or projects.

ARTICLE 2.000 AUTHORITY & RESPONSIBILITY OF THE COMMITTEE IN ADMINISTERING THE AGREEMENT

- 2.100 With the Company, to interpret and administer the terms and conditions set forth in the agreement.
- 2.200 To screen and police each company seeking use of Agreement in order to assure proper application and interpretation.
- 2.300 To review and instruct member Unions and/or the Company in interpretation and application of terms and conditions (subject to Step V of Grievance Procedure) when the Company or employees of any given Union depart from Agreement conditions.
- 2.400 With the Company, through a Subcommittee, visit the location of each maintenance job prior to commencement or as often as necessary to initiate and maintain the cooperation of the Local Unions.
- 2.500 To prepare and distribute duly negotiated collective agreements for signing.

ARTICLE 3.000 RECOGNITION

- 3.100 The bargaining unit under this Agreement shall comprise all employees of the Company, coming under the jurisdiction of the Unions signatory to this Agreement, now employed and employed in the future for maintenance, repair and renovation work at the Owner's plant site.
- 3.200 The Company and the Unions:

- 3.201 Agree that the jurisdiction recognized herein for each Union shall be the jurisdiction recognized by the AFL-CIO, provided, however, that if they or the Unions are unable to agree upon the Union which is to have jurisdiction over any group of employees, the Company will recognize one as having jurisdiction until such time as the Claimant Unions agree upon another and provided further that work considered within the jurisdiction of any Union which is not represented by the Unions listed herein may be assigned by the Company to the jurisdiction of the most appropriate Union.
- 3.202 Recognize the Unions as herein duly constituted for the purpose of bargaining collectively and administering this Agreement for the members of their respective Unions. The responsibility for interpretation and administration of this Agreement rests in the Committee.
- 3.203 Agree to bargain collectively with the Unions and to be governed by the terms of this Agreement and by all lawful settlements of disputes and grievances made pursuant thereto. On maintenance work, the Project Agreement shall govern terms and conditions and take precedence over local construction agreements or area practices.

ARTICLE 4.000 UNION SECURITY

- 4.100 All employees under this Agreement, as a condition of employment, shall be members of or secure membership in a Signatory Union and maintain such membership in good standing.
- 4.200 The Company will cooperate with the Signatory Unions in providing employment to their members and the Unions agree to assist the Company by all means in their power to secure necessary skilled and competent tradesmen.
- 4.300 The Company will contact the appropriate Union local first to secure the necessary tradesmen. However, when the Union cannot supply tradesmen within 48 hours exclusive of Saturday, Sunday and holidays, the Company may secure them from any source and immediately put them to work with advice to the tradesmen that they are employed subject to Union Agreement of Membership and advice to the appropriate Business Agent that the tradesmen are on the job. The tradesmen employed under these conditions will make application to the appropriate local union within fifteen (15) calendar days of hire.
- It will be the Unions' responsibility to provide a referral slip to the tradesmen at the Jobsite. New employees shall not be permitted to hire on without a dispatch slip from the Union.
- 4.500 When the Union cannot supply qualified tradesmen within 48 hours of the date requested, then the Company may secure other qualified tradesmen who must apply for membership in the respective Union.
- 4.600 In emergency situations, where the Company has two or more Maintenance Projects within the jurisdiction of the same Local Union, the Company shall have the right to transfer employees between projects after the Local Union has been given the opportunity to supply and has failed to do so within four hours.

ARTICLE 5.000 SCOPE OF WORK

- 5.100 The scope of this Agreement covers all work of a maintenance, repair and renovation nature, assigned by the Owner to the Company and performed by the employees of the Company covered by this Agreement, within the limits of the Owner's plant site.

- 5.200 The scope of this Agreement does not cover work performed by the Company of a new construction nature which is work required to erect new facilities in which event the work shall be done in accordance with existing building construction agreements.
- 5.300 The Unions and the Company understand that the Owner may, at his discretion, choose to perform or directly subcontract work for any part or parts of the work necessary in his plant.

ARTICLE 6.000 DEFINITIONS

- 6.100 Maintenance shall be work performed for the repair, renovation, revamp and upkeep of property, machinery and equipment within the limits of the plant property.
- 6.101 "Long-Term Maintenance" shall be the continuing work performed of a maintenance, repair, renovation character within the limits of the plant property exclusive of "Short-Term Maintenance" defined below.
- 6.102 The Company will designate the anticipated number of Long-Term Maintenance force job openings at the pre-job meeting and from time to time as job conditions warrant.
- 6.103 "Short-Term Maintenance" means work that is terminated within thirty (30) available days of work.
- All work performed by the Company on existing equipment and machinery, including all associated work in a given plant, shall be maintenance. This shall include replacement of existing individual items of machinery and equipment with new units, including all associated work. It is understood that this concept would not include replacement of an entire process system installation in a plant in order to increase production.
- 6.300 Addition of spare machinery or equipment may be done under the Maintenance Agreement provided it is for debottlenecking purposes. Example: There are two existing pumps. Both pumps are required to run at all times to maintain full production. A spare may be added for the purpose of having one pump down for maintenance.
- 6.400 Changes to existing units for reasons of feed stock changes or fuel changes shall be maintenance.
- 6.500 The word "repair" used within the terms of this Agreement and in connection with maintenance, is work requested to restore by replacement or by revamp of parts of existing facilities to efficient operating conditions.
- 6.600 The word "renovation" used within the terms of this Agreement and in connection with maintenance, is work required to change by replacement or by "revamp" of parts of existing facilities to efficient operating conditions.
- 6.700 Fire restoration work will be administered as follows:
- 6.701 The restoration of a plant completely destroyed by fire is considered construction work.
- 6.702 The restoration of a major part of a plant including several sections which have been destroyed or damaged by fire, shall be governed by the following criteria:

- (a) The removal of damaged equipment and the preparation of the damaged area to make it suitable for new equipment will be Maintenance.
- (b) The installation and erection of new equipment will be Construction.

6.703 When the fire damage is localized to a given operating unit, such as a heater, distillation tower, compressor, pumphouse equipment and the like, then the restoration of same is to be considered Maintenance.

The administration and interpretation of this Article is the responsibility and prerogative of the General Presidents' Committee for Contract Maintenance in Canada.

ARTICLE 7.000 GRIEVANCE PROCEDURE

7.100 It is agreed that it is the spirit and intent of this Agreement to adjust grievances promptly. All grievances, including discharge for just cause, but not those pertaining to jurisdictional disputes that may arise on any work covered by this Agreement must be initiated within twenty-one (21) calendar days of the incident by either the employee in Step I or the Local Union in Step II and shall be handled in the following manner:

7.101 Step I Between the aggrieved employee and/or the Craft Steward and the Company supervisor.

7.102 Step II Between the aggrieved employee, the Craft Steward and/or Local Union Business Representative and the Craft Foreman, the Supervisor and the Project Manager. If settlement is not achieved at this step, the grievance must be presented in writing to the Company and to the International Representative of the Union involved.

The Employer shall respond in writing within twenty-one (21) calendar days from the date which the grievance was presented in writing to the Employer. If settlement cannot be reached at this step or if the Employer fails to respond in writing within the time limit specified, the Union may then proceed to the next step of the grievance procedure.

7.103 Step III Between the International Union Representative and the Labour Relations Manager or the highest official of the Company.

7.104 Step IV By negotiation between a committee of the Unions signatory to this Agreement and senior officials of the Company at a meeting to be held at the place of work or a mutually agreeable location.

7.105 Step V If any dispute or grievance concerning the interpretation, application or violation of this Agreement cannot be settled through the procedure described above within ten (10) working days, the matter may be submitted by a Signatory Union to this Agreement or the Company, to a Board of Arbitration for adjudication. This Board shall consist of three (3) Arbitrators, one appointed by each party to this Agreement and the third, who shall act as Chairperson, to be selected by the two so appointed. The party desiring arbitration shall appoint its Arbitrator and shall give notice in writing to the other party together with a written statement of the question to be arbitrated. In the event that the other party does not appoint its Arbitrator within three days the appointment shall be made by the Minister of Labour for the Province in which the grievance occurs.

In the event the two Arbitrators appointed cannot within three days select a third Arbitrator who is willing to serve, the two Arbitrators shall jointly request the Minister of Labour of the Province in which the grievance occurs to designate the third Arbitrator who shall act as Chairperson. This Board when selected or appointed will proceed as soon as practicable to examine into the dispute or grievance and on the basis of the facts, render its judgment. The majority or unanimous decision of the Board of Arbitration shall be final and binding and accepted by both parties for the duration of the Agreement.

In the event that a majority decision is not reached by the Board of Arbitration, the decision of the Chairperson shall be deemed to be the decision of the Board and shall be final and binding and accepted by both parties for the duration of the Agreement.

The Arbitration Board shall not be authorized to make any decisions inconsistent with the provisions of this Agreement, nor to alter, modify or amend any part of this Agreement.

In arbitration proceedings, each party shall pay the expenses of its Arbitrator and the expenses of the Chairperson shall be shared equally by the parties.

The Company shall provide the necessary facilities for the grievance meetings.

- 7.200 As an alternative to the provisions of Article 7.105, a single arbitrator may be appointed by mutual agreement of the parties.

ARTICLE 8.000 JURISDICTION

- 8.100 Project maintenance conditions do not always justify adherence to craft lines which, in itself, does not establish precedent or change the appropriate jurisdiction of the crafts involved. Composite crews may be formed where conditions warrant, but this is not to be construed under regular operating conditions as the Company's prerogative to assign employees out of their usual skill classification.
- 8.200 The Company may, if it desires, maintain a variety of skills within its group of employees to be prepared to have skills and/or supervision for any type of work that may arise.
- 8.300 It is understood that all employees will work together harmoniously as a group and as directed by the Company.
- 8.400 In the event that any jurisdictional disputes shall rise between two or more Unions represented by this Agreement, an immediate assignment of the work in question shall be made by the Company representative, based upon decisions and agreement of record or other information available. The work is then to continue and, if any of the Unions involved are not satisfied with the assignment, the matter shall be referred to the International Office of the Unions involved for a project decision.
- 8.500 The Company and the Unions agree that such assignment of work involved in a jurisdictional dispute is imperative to the satisfactory operation of this Agreement and the continued operation of the Owner's plant.

ARTICLE 9.000 UNION REPRESENTATIVES

- 9.100 Representatives of the Unions shall have access to the job during working hours on Union business. They shall, as regulations of the plant permit, obtain specific authorization from the Company for each

visit. When Representatives are visiting a project site with multiple Employers, they will contact each individual Employer prior to contacting the Employees of each respective company.

ARTICLE 10.000 STEWARD

10.100 Each Union signatory to this Agreement may appoint or select one (1) working Steward from among the Company employees to act as a representative of the Union in connection with Union business. Each Union may also appoint an acting Steward for afternoon or midnight shifts and based upon the requirements of the site may appoint additional alternate Stewards after consultation with the Employer. These Stewards shall be allowed reasonable time to conduct Union business related to work being performed under this Agreement at the project site. The provisions of Article 10.400 shall only apply to one designated Steward per Union.

The Business Manager or Business Agent of the applicable Local Union shall be consulted in advance of the termination of the Steward.

10.200 Steward designations must be confirmed in writing to each job superintendent in order to allow recognition of Steward's privileges.

10.300 The Steward shall not be discriminated against and shall receive his fair share of overtime work for which he is qualified. The company will use its best efforts to advise Job Stewards of unscheduled overtime.

10.400 At layoff the appointed Steward will be one of the last five employees on the job.

10.500 Notwithstanding the remainder of this Article, a Job Steward who is a short-term employee may be laid off when the assignment for which he was hired is completed.

ARTICLE 11.000 REFERRAL OF TRADESMEN

11.100 Maintenance work that the Company performs involves maintaining operating units that in almost all cases must be kept running. This situation means that much of the work is of an emergency nature and therefore, will require at times the acceptance of extreme fluctuations in the labour demands made by the Company on the Unions. The Unions, by this Agreement, completely understand the necessity of these extremes and agree to make every effort to fulfill the personnel requirements of the Company.

11.200 When employees are required, the Company shall request that the required number of applicants be referred for employment under the following minimum standards. Such requests to the Union Hall will be made and/or confirmed by facsimile.

11.201 The Local Union Business Representative will be contacted by the Company on all occasions when tradesmen are required and the Company shall state that the tradesmen are required for maintenance work, and also state:

- (1) whether they are to be day rated, short shift, long shift or Compressed Work Week employees.
- (2) whether they are to be initially employed on Long-Term or Short-Term Maintenance as defined herein.

- 11.202 The Company will use its best judgment in advising the Local Business Agent of type of work (i.e. day rate, shift, etc.) and if employee is to be assigned to Long-Term or Short-Term Maintenance work.
- 11.203 The Union representative shall, to the best of his ability, supply qualified tradesmen to perform the work described under this Agreement. The parties to this agreement support the concept that employees will provide trade qualification certificates, where applicable, at hire.
- 11.204 For just and sufficient cause, the Company shall retain the right to reject any applicant referred by the Union.
- 11.205 The Company may request employees by name who have special skills or have previous maintenance experience.
- 11.300 The designation and determination of the number of foremen on maintenance work shall be the prerogative of the Company. Foremen may be requested to work with the tools when, in the Company's opinion, it is advisable.
- 11.400 Tradesmen referred to the job by the Local Union Representative, shall report to the specified location at the date and time specified by the Employer.
- 11.500 The Company may transfer employees with special skills or qualifications to projects which are in the geographical jurisdiction of the Local Union and where forces are being increased. Transfers are not permitted to displace existing employees.
- Transfer between GPMA Agreements within the scope of the Local Union is permitted with the mutual agreement between the Company and the Local union and on a voluntary basis for each affected employee. The Mutual agreement between the Company and the Local Union will not be unreasonably withheld. In the event that the employee refuses to be transferred, he/she will be issued the appropriate Record of Employment (ROE) pursuant to the Employment Insurance Act, however, it is generally understood that such circumstances would not attract a Code M or E designation.
- 11.600 When employees are absent from work and do not inform the project supervisor of the reason for their absence such employees may be terminated.
- 11.700 The parties to this Agreement recognize the importance of apprenticeship to the maintenance industry. The parties agree to support, wherever practicable, the employment of apprentices on maintenance projects to reflect acceptable reference agreement ratio.
- 11.800 Employees who attend specific, technical training courses associated with their maintenance duties which are organized by the company beyond their normal hours of work or on Saturdays, Sundays or earned days off, shall be paid at straight time rates of pay.
- 11.801 The component unions of the General Presidents' Maintenance Committee for Canada (GPMC) recognize the importance of the supply of skilled and ready-to-work employees on maintenance projects. The GPMC agrees to adopt the core training safety provisions which have been established by the individual component unions and outlined in their respective reference agreements. Any future additions incorporated in to the trade specific appendices of the reference agreement will be incorporated into this agreement. The Committee understands the current costs being absorbed by the industry due to the duplication and redundancy of training and commits to working with the signatory employers towards the development of an industry standard for core training within the province of Alberta.

- 11.802 The parties are committed to eliminating unnecessary, duplicative safety training. Therefore, workers are expected to disclose to the Employer any current safety training certificates that may be required for that job, as identified by the employer at the point of dispatch. The Employer shall supply a single point of contact for the purpose of supplying this information by way of email, fax, or phone. Following the acceptance of a dispatch slip, workers shall promptly remit to the Employer, copies of any applicable safety certificates by fax, email, or personal presentation at an address of the Employer or any other method that will achieve this objective.

ARTICLE 12.000 WAGES

- 12.100 Wages are to be paid as follows:

Effective May 7, 2017 this amount increases to one dollar and fifty cents (\$1.50) (for all hours worked). The premium is not to be pyramided.
- 12.300 Management Association funds, discretionary funds and premium for high or low work, hazardous work, dirty work, acid work and other similar fringes are excluded from this Agreement. The contribution to the U.A. Canadian Training Trust Fund is required under this Agreement.
- 12.400 In the event that local agreements terminate and no agreement is reached regarding wages, the Company, in order that continuity of work shall be maintained agrees as follows:
- 12.401 Should a work stoppage occur in negotiating the local Agreement, the employees of the affected Unions will be paid the appropriately adjusted wage rate negotiated in the new Agreement, on a retroactive basis to the date of the work stoppage or the effective date of the new wage rate whichever

is the earlier. This is to ensure against any work stoppage on this project which would be caused by a breakdown of local negotiations.

12.500 Wages will be paid weekly by cheque or electronic deposit. At the discretion of the Employer, an exception to direct deposit will be made where an employee is able to provide a letter from a recognized Canadian Financial Institution verifying that the employee is ineligible to establish banking arrangements. The payroll period will generally close at 12:00 midnight on Saturday, however, in order to meet the job requirements the Company may close the payroll earlier. This will be established as a job condition and those affected so notified. Wages will be distributed not later than the following Thursday before the end of the shift except during a week when a Statutory Holiday falls on a Monday, in which case wages will be distributed no later than the following Friday before the end of the shift.

At the Employer's option, electronic pay records and records of Employment may be provided in lieu of printed records. Upon request from an employee that does not have the capability to access electronic records, printed pay records shall be issued. Upon request, a printed record of employment will be issued.

12.501 Employees who are separated from the services of the Company shall normally receive their final wages, vacation pay due, Record of Employment (ROE) on their next regularly scheduled pay period for the pay period in question.

When electronic deposits are made, the final deposit and other termination document mailings/filings must be made by the next pay period.

12.502 It is recognized that there will be certain occasions when the timeframes in 12.501 are not met. For cheques or deposits not received in accordance with the timeframes set out in 12.501 above, following notice to the Company by the Employee or local union penalties contemplated in 12.503 shall apply. In the event that there is a payroll error (miscalculation) on the final cheque or electronic deposit, the Company will have three (3) days exclusive of Saturdays, Sundays and Statutory Holidays, after notification is provided to the Company in accordance with the Company's normal payroll query process, to provide a make-up payment. Should this make-up payment not be made within the three (3) days, the Company will pay a penalty of \$100.00 from the pay date of the final electronic deposit.

Should this payment not be made, the applicable provisions of Article 12.503 and Article 12.504 above will apply.

- 12.506 When the Company or the Employee becomes aware of an overpayment, the Company the Union and the Employee will meet to negotiate the repayment terms.

ARTICLE 13.000 DAY WORK CONDITIONS

- 13.100 Eight (8) hours per day shall constitute a standard work day between the hours of 7:00 a.m. and 5:30 p.m. Forty (40) hours per week shall constitute a week's work, Monday to Friday inclusive. As an option a ten (10) hour day, 4 day work week, Monday through Thursday and/or Tuesday to Friday may be established. Start times may be staggered two (2) hours between 7:00 a.m. and 9:00 a.m. as above. Once established it becomes the regular hours of work for those so assigned.

When the hour before and the hour following the missed break are at straight time, time and one half (1½ x) shall be paid for the missed break. This option shall not be applicable to compressed work weeks for which work days are regularly scheduled in excess of ten (10) hours. A change in the scheduling of breaks will normally be communicated to the affected employees prior to the end of the work cycle before the change.

The Company does not guarantee to provide work to any employee for regularly assigned hours, except as provided in 20.000.

The issue of the twelve (12) hour day with three (3) half hour paid breaks will be covered off in a new Appendix Letter (attached to this document).

- 13.101 An employee, who is requested to work through his scheduled noon lunch period and the lunch period provided falls beyond the staggered one hour allowance, will be paid an additional one half hour at the straight time rate.

- 13.200 All time worked before or after the established work day of eight (8) hours, Monday through Friday, and all time worked on Saturdays, Sundays and recognized holidays, as listed in Article 18.000 of the Agreement shall be paid for at overtime rates as follows:

- 20.201 When an employee reports to work and is not given the opportunity to work because none is available or was not advised before the completion of the previous day's work, he shall be paid two (2) hours reporting time and allowed to leave the job immediately.
- 20.202 If an employee has started to work on his regular shift he shall be paid not less than four (4) hours pay. When the employee works more than four hours but less than eight hours on his regular shift he shall be paid a minimum of eight (8) hours pay.
- 20.203 It is understood and accepted that when work is not available or the employee has started to work on his regular shift and is then instructed to report for work at a later time in a given twenty-four (24) hour period the 2-4-8- principle applies to the regular shift. If the regular shift (not including overtime) is more than eight (8) hours (10 or 12 hours/CWW, etc.) the 2-4-8 equates to 2-5-10 or 2-6-12 respectively.
- 20.300 Conditions for Call-Ins of employees will be as follows:
- 20.301 When an employee is called in to work on his scheduled day off or a holiday, he shall be paid a minimum of two and one-half (2-1/2) hours pay at double (2) the basic hourly rate.
- When the 4 x 10 schedule Tuesday to Friday is employed on a ten and four rotation and the employee is called into work on the straight time day (Friday of the second week) the employee will be paid straight time rates for hours falling within the normal work day.
- 20.302 Employee will receive minimum of two and one-half (2-1/2) hours pay for all Call-Ins regardless of time or duration except that total call in pay within a given 8 hour period will not exceed normal overtime pay for that 8 hour period.
- 20.303 Call-Ins which immediately precede and become continuous with regular work day will be paid as follows:
- (i) Minimum of 2-1/2 hours at double the basic rate.
 - (ii) Overtime rate for any hours worked in excess of 2-1/2 hours up to starting time of employee's regular work day.
 - (iii) At normal starting time of employee's regular work day pay shall revert to appropriate pay for that day.
- 20.304
- (i) When a tradesman is advised prior to completion of a shift or work day or provided eight (8) hours notice after completion of a shift or work day, to report early for succeeding shift or work day, such work is not considered "Call-In", but will be paid at the applicable overtime rate without regard to minimum pay.
 - (ii) When a tradesman is advised prior to completion of a shift or work day or provided eight (8) hours notice after completion of a shift or work day, to report back and does report for work, at a specific time between shifts or on a scheduled day off, such work is not considered "Call-In" but will be paid a minimum of two and one-half (2-1/2) hours at the applicable overtime rate.

- 20.305 It is not intended that an employee shall work more than 16 hours in any given twenty-four hour period, therefore, it should be established that the employee must have at least eight continuous hours off between regular shifts or he will be paid overtime rates for all hours worked in excess of first eight, until such time as the employee does have 8 continuous hours off.
- This shall be established as a Project Rule and it shall be the Supervisor's responsibility to verify the returning time with any employee working in excess of 16 hours or returning between shifts on "Call-Ins" to ascertain that the employee does receive the 8 hours off or is paid correctly.
- 20.306 It is the intent of this clause that no employee shall lose pay on a normal shift due to taking the required eight (8) hour break.
- 20.400 Subject to the above, it shall be the Company's prerogative to decide whether work shall be stopped during a day of work.
- 20.500 If an employee stops work for reasons of his own, and without the approval of the Company, he shall be entitled to pay only for the hours actually worked in the day and minimum conditions shall not apply.
- 20.600 Conditions for employees on Stand-By Duty on scheduled days off will be as follows:
- Whenever an employee is scheduled for stand-by duty the employee will be reimbursed with two hours pay at doubletime for each period of duty. Each stand-by period will not exceed twenty-four consecutive hours, and not more than three consecutive stand-by periods will be permitted. Stand-by duty means that an employee agrees to be available on call during the period. The names of persons on stand-by duty will be posted.
- 20.700 On initial hire or transfer, employees who report for work and no work is available shall be paid two (2) hours show-up on the first day. If no work available persists, employees who report for work each subsequent day will be so notified and paid two (2) hours straight time per day until work commences. In any event, after three (3) consecutive days of no work available, the employee is entitled to a lay-off for lack of work.

ARTICLE 22.000 MIXED CREWS

- 22.200 In the event that an emergency arises which would not warrant the "Call-In" of other tradesmen or others could not be reached, the Company shall have the right to assign those on the project to such emergency work as is necessary. The Company agrees that in such cases, it will have due regard where practicable to Union jurisdiction.
- 22.300 Conditions for emergency work are as follows:

- 22.301 A mixed crew under the terms of this Agreement shall be any group of employees up to and including the entire maintenance force signatory to this Agreement necessary to meet the emergency situation without regard to classification or craft for that period only.
- 22.302 An emergency under the terms of this Agreement is defined as any situation of an unexpected nature endangering life, property or normal plant production.
- 22.303 In the event such emergency continues, a return to craft line operation will be made as soon as contact between the Contractor and Local Business Agent is feasible. In any event the Contractor shall notify any or all Local Business Agents whose craft rights have been affected during the course of such emergency not later than the next regular business day.

ARTICLE 23.000 SUPERVISION

- 23.100 The Company reserves the right to send into the area of work as many Supervisors and Professional Engineers, as it deems necessary to supervise the work covered by this Agreement.

ARTICLE 24.000 TOOL ROOMS

- 24.100 The Company and the Unions agree that it shall be the Owner's prerogative to maintain and operate a general centrally located tool room and warehouse. The Unions agree that the personnel required for the operation of the centrally located tool room and warehouse may at the Owner's option be employed directly by them.
- 24.200 If it is the intention of the Company to establish area tool rooms and warehouses as required for efficient service in the plant, these area tool rooms and warehouses will be manned under the terms of this Agreement.

ARTICLE 25.000 FIRST AID, SAFETY AND PROTECTIVE CLOTHING

- 25.100 First Aid - the Company or the Owner will provide first aid services in accordance with applicable Provincial or Federal Legislation and Regulations.

The Unions and their members shall at all times fully cooperate with the employer ensuring that safe work practices have been followed. The employees covered by the terms of this agreement shall at all times while in the employ of the Company be bound by the Safety Rules and Regulations as established by the Company and the Owner. These rules and regulations are to be published at conspicuous places throughout the plant. The Company will provide to the employees, such items of safety equipment and apparel as required by these Safety Rules and Regulations.
- 25.300 Protective clothing for employees will be as follows:
- The company on request shall issue up to 2 pairs of coveralls to long term employees each twelve months. Cleaning of these coveralls will be the responsibility of the Company. All such clothing when issued by the company will be worn during on-the-job activity, and will remain company property and must be returned before leaving the jobsite. Rules and regulations governing the issue and return of such clothing will be published at a conspicuous location on the job.

- 25.302 The company accepts the responsibility to provide coveralls and all necessary protective clothing required for working conditions which are exceptional or would lead to speedier deterioration of personal clothing, than under normal or usually accepted working conditions.
- 25.303 The company will provide a separate area for employees to remove and store coveralls, work clothing etc, prior to entering lunch rooms.

ARTICLE 26.000 PROJECT RULES

- 26.100 Local Union Business Representatives should encourage all members to give employers a permanent mailing address and the name and address of "next of kin" for notice purposes.
- 26.200 It is recognized that in an operation of this kind, the Company and the Unions have interests in the rules governing the performance of the work under this contract. It is agreed that such project rules and regulations will be prepared and distributed among the tradesmen on the job by the Company, provided such rules do not conflict with or contravene terms of this Agreement.
- 26.300 It is agreed by the Unions that all of the employees covered by this Agreement shall be made aware of these project rules and regulations by the Company at the time of their hire and that they shall be bound by them throughout the duration of their employment.

EXAMPLES SECTION

CASE I An employee who works from 8:00 a.m. to 4:30 p.m., and is called in at 1:00 a.m. and works until 3:30 a.m., then resumes his regular shift at 8:00 a.m., would be paid overtime for the hours worked from 1:00 a.m. to 3:30 a.m., but would be on straight time for 8:00 a.m.

The employee had a continuous 8 hour break between the end of one regular shift (4:30 p.m. to 1:00 a.m.) and the beginning of the next.

CASE II An employee who works from 8:00 a.m. to 4:30 p.m., and is called in at 11:00 p.m. and works until 2:00 a.m., then resumes his regular shift at 8:00 a.m., thus has not had a continuous 8 hour break between the end of one shift and the beginning of the next. The employee is entitled to overtime from 8:00 a.m. onwards until an 8 hour break occurs, or alternately and preferably the employee may be instructed not to report until 10:00 a.m., i.e., so that the employee has an 8 hour break. In this event the "2, 4, 8 hour" pay clause would apply and the employee would receive 8 hours pay for that day even though he reported back to work at 10:00 a.m. For call-ins on Sunday, which precede and may become continuous with regular work day Monday morning, the following rules will apply:

(1) The employee must have 8 continuous hours off in the 24 hour period immediately preceding 8:00 a.m. Monday morning.

(2) The employee should not work more than 16 hours without an 8 hour break.

CASE I Therefore, if an employee is called in at 4:00 p.m. Sunday and works until 1:15 a.m., the employee should report for work at 8:00 a.m. and be paid straight time, as the employee had an 8 hour break in the 24 hour period preceding 8:00 a.m. Monday.

CASE II An employee should not work more than 16 hours and must take an 8 hour break before continuing work. Therefore, an employee called in at 7:00 p.m. Sunday could work until 11:00 a.m. Monday, 16 hours. The employee would be paid double-time from 7:00 p.m. until 8:00 a.m. The employee would revert to straight time at 8:00 a.m., until 11:00 a.m. The employee would then be sent home at 11:00 a.m. and paid 8 hours for Monday (8:00 a.m. to 4:30 p.m.). Employees working long call-ins that approach regular starting time on Monday, should be given the option of remaining at work and taking advantage of the 16 hour rule. In other words, it is unfair to send the employee home at 7:00 a.m. after working 10 hours, and expect the employee to be back at 8:00 a.m. to be paid straight time.

CASE III In another case an employee is called in at 2:00 p.m. on Sunday and works until 2:00 a.m. The employee would be instructed to take an 8 hour break and report at 10:00 a.m. Monday and be paid for the day at straight time, as the employee did not have a continuous 8 hour break in the 24 hour period from 8:00 a.m. Sunday to 8:00 a.m. Monday.

9 hours per day at straight time Monday to Thursday, and Friday off in Week # 2

Overtime on the altered work week schedule will be paid as follows:

Week 1: - time and one-half (1 ½) for the 1st 2 hours worked before or after the regular 9 or 8 hour work day Monday to Friday – Doubletime will be paid thereafter.

Week 2: - time and one half (1 ½) for the 1st 10 hours worked on the earned Friday off – all other overtime is doubletime.

It should be noted that the altered schedule applies to “regular maintenance” and the schedule will revert to the standard GPA conditions for major shutdown work.

The 9/80 schedule has been established and utilized at Shell Chemicals, Scotford, Alberta for an extended period with success and the workers seem to enjoy having every second Friday off.

Re: Shell Canada Scotford General Presidents' Maintenance Agreement Work Week
Alteration Request – Refinery and Upgrader Departments.

Dear Sir:

This is written in response to your letter of December 12, 2004 regarding the extension of the existing 90/80 work week schedule at the Shell Chem site to the refinery and upgrader portions of the plant. This request has been made by Shell management in order to align the contracted work force in these departments with Shell's own forces and accordingly the Committee has determined to approve it.

It is understood that the upgrader and refinery departments will administer the schedule in the same manner as at the Chem site with respect to overtime and application. This means the altered schedule applies to "regular maintenance" and the schedule will "revert to standard GPA conditions for major shutdown work" as described in Terry Burton's original letter of December 12, 2000.

We understand the schedule will commence in the refinery and upgrader effective January 4, 2005.

Yours truly,

S.M. Smillie,
Executive Director

Re: Shell Chemicals, Scotford, Alberta - Work Week Alteration:

Dear Members:

At the annual meeting on December 7, 2000, D.C.I.S.L. requested and the General Presidents' Maintenance Committee approved a work week alteration for employees working long-term maintenance at the Shell Chemicals, Scotford site.

Under the regular work week provisions of the Alberta G.P.A., there is 10 hours of time and one half (1 ½) paid each week. There was no intent to eliminate time and one half (1 ½) overtime payments contained in the collective agreement with the establishment of this altered work week. However, this was unclear in both D.C.I.S.L.'s correspondence and in ours and predictably this has prompted controversy on site.

After discussing this situation at a meeting February 27, 2001, the General Presidents' Maintenance Committee has instructed me to clarify the overtime arrangements in this work week alteration for Shell Chemicals, Scotford, Alberta.

Overtime on the altered work week schedule will be paid as follows:

Week 1: - time and one half (1 ½) for the 1st 2 hours worked before or after the regular 9 or 8 hour work day Monday to Friday - Doubletime will be paid thereafter.

Week 2: - time and one half (1 ½) for the 1st 10 hours worked on the earned Friday off - all other overtime is doubletime.

In Chart Form for clarity:

	WEEK 1						WEEK 2							
	M	T	W	TH	F	S	S	M	T	W	TH	F	S	S
REG HRS	9	9	9	9	8			9	9	9	9			
DAYS OFF						OFF	OFF					OFF	OFF	OFF
O/TIME PYMNTS	2 HRS 1 ½	2 HRS 1 ½	2 HRS 1 ½	2 HRS 1 ½	2 HRS 1 ½	DT	DT	DT	DT	DT	DT	10 HRS 1 ½	DT	DT

It should be noted that those employees working more than 10 hours are entitled to an overtime meal and break at the 10 hour mark pursuant to the overtime meal articles in the agreement.

We trust this eliminates any confusion. Please advise your Local Union representative of this arrangement.

Yours truly,

S. M. Smillie,
Executive Director
