

General Site Communication Bulletin

Site Leadership Team

Subject: Fort Hills 2016 Wildfire Communication 05/04/2016 5:30 AM

Director's and project area CMT are to get a hold of their respective contractor's for the following update:

- People asked to perform "Safe Out" work will continue to work today Wednesday May 4th
- All Supervision and craft not performing "Safe Out" duties are to remain in their respective camps until further notice
- Contractors are asked to perform a head count of their current on-site Supervision and craft and to report these names and an overall number back to their CMT project area contacts

We will provide further updates when more information is available. The Site Leadership team thanks everyone for their support during these efforts.

Thank You.
